BERGEN-NICHE VALLEY

But still on gentle slopes,
In village fringed with wood,
Ungathered, ripening in the sun
The heavy corn crop stood.
—Whittier.

The School Fair held at Sundre on September 5th held the interest of parents and children until the judges had given their decisions as to the merits of vegetables, cooking, sewing school work, chickens, calves, colts, lambs, pigs, etc., displayed by Rockwood, Eagle Valley, McDougal Flats, Westward Ho, Bergen, Eids-wold, and other districts competing.

ALBERTA STEAM LAUNDRY

Twice a week service
MONDAY and THURSDAY

Laundry-Dry Cleaning-Dyeing

Local Agent:

H. Hawkes Grocery

Phone 134 Didsbury

It was a difficult matter for the judges, for competition was close.

Florence Gamble took first prize for a map of Europe.

Edwin and Minnie Halvorson took first and second for asters.

Ferrell Gamble took fifth prize for towel.

Esther and Mary Erickson won prizes for sewing.

Bessie Sande won a prize for White Wyandotte chickens.

Sally Dougan, of Bergen, a prize for chickens.

Alvin Gamble took third prize for weather chart. Grace Gamble won prizes in school contest.

The winners' names will be printed later in the Olds Gazette.

The following item appeared in The Poynette, Wis., Press, last week:

We received a copy of the Gamble-Bacon Ancient-Modern Fixed-date Calendar. Mr. Gamble is the husband of Ida Chalfant, formerly of this place.

R. E. Sells has filed on the S.E. 2-31-6-5. R. S. Stevens on S.W. 3-31-6-5.

P. A. Blain is building a new house

Threshing In Full Swing This Week

The storm last Thursday held up harvesting for only one day. Not enough moisture fell to allay the dust on the roads. Friday night was clear and cold and the first severe frost of the season struck the district, there being 7 and in some places 8 degrees of frost registered.

Only a small percentage of the crops in the district was green enough to be damaged, most of the wheat being cut or nearly ripe. All tender garden plants suffered damage.

Threshing operations will be general throughout the district this week. Plenty of labor is available at present.

According to the latest C.P.R. crop report progress in cutting and threshing in the West has been rapid during the past week because of good weather. The rye harvest is over in all three provinces. There has been no frost in Manitoba.

Apart from frost damage yet to be appraised from threshing returns, good yields of all grains appear evident.

With abundant pasture during the summer, ample fodder for the winter and excellent market prices prevailing, the livestock situation is unusually good. Livestock conditions in the other provinces are also good.

RUGBY W.I.

The Rugby Women's Institute held their September meeting at Mrs. Otto Krebs' home. A very interesting paper on "Hindus" was presented by Mrs. Orvin Swingle. There was also a discussion on "Music in the School." Mrs. Wahl gave a report of the Constituency Convention. The Institute is planning a big chicken supper, wheel drive and dance for Friday, October 26th. The October meeting will be held at Mrs. Alfred Cowitz's home.

on N.W. 27-31-6-5. They have also fifteen stacks of tame hay.

Ben Lutkehaus on N.E. 36-31-6-5 has built a new house.

Ira Gamble has re-roofed his barn

Stevens and Sells are improving the West End boulevard.

Bergen and Eids-wold each have no teacher. They are an elusive lot.

John Haug has done some good breaking on the John Newton place.

It has frozen ice and frosted six times since August 15th.

There is hay and green feed to be harvested yet. An abundance of feed for the winter.

You will be needing Crockery & Dishes for Threshing

We have a big assortment of all lines

Special

Hotelware Dinner Plates, per doz. \$3.75
" Cups and Saucers, per doz. 3.50

This crockery usually sells around \$6.00 but we bought them from a Bankrupt House at low prices. These plates, etc., will stand hard usage without breaking.

Men's Work Shoes

Values to \$6.00. To clear at \$3.75, \$3.95 and \$4.50

Groceries

Pure Plum Jam . . . 50c tin

HIGH QUALITY FAIR PRICES

Percentage Local High School Exam Results High

In the recent high school examinations, Didsbury holds rather an enviable position in the percentage of units passed. In a total 516 units written in the local high school there were 451 passes and 65 failures. This gives Didsbury an average of 87.4 per cent which is 4.4 more than the Calgary high schools.

Prize Winners at the Didsbury Exhibition

MAKING A RECORD IN LOADING GRAIN

The rapidity with which grain can be handled at a terminal elevator when the best and latest methods and machinery are employed was illustrated the other day at Port Arthur, Ontario, at the new elevator of United Grain Growers Limited. Within a time of seven hours and twenty minutes 550,000 bushels of wheat were loaded into the S.S. Le Moyne, breaking all previous records. The fastest time previously made with a cargo of this size has been eight hours and thirty minutes.

The elevator is equipped with four loading spouts, each fourteen inches

in diameter, all of which were employed at the same time. These spouts run from loading bins, into which grain is dropped after being weighed at the top of the elevator in four hopper scales, each with a capacity of 2,500 bushels. Grain is brought to the scales in four elevating legs from the bottom of the "work-house," where it is conveyed on belts from the storage bins. This rate of shipping means over 75,000 bushels per hour, equivalent to loading a car-load of grain every minute.

The United Grain Growers' elevator shown in the picture, which was placed in service during the past crop year,

has a capacity of 5,500,000 bushels. New features of design were incorporated in its structure, and it was planned and equipped to provide for the most rapid and efficient possible handling of grain. The loading above referred to was accomplished in the ordinary course of business without any special preparations designed for making a record.

The S.S. Le Moyne belongs to the fleet of the Canada Steamship Lines, and is the largest vessel on the Great Lakes. She is 613 feet long, with a beam of 70 feet, while she draws up to 29 feet of water when fully loaded.

The Impatient West

Twenty-five years ago the population of the three prairie provinces was considerably less than one million people; today it is well over two million people. Nevertheless Western people talk of the slow growth in population, and are severely critical of the Government at Ottawa, irrespective of its political complexion, and the immigration policies which have prevailed.

Twenty-five years ago Manitoba was largely an undeveloped province, while the Provinces of Saskatchewan and Alberta were yet to be born, this vast territory being known as the North-West Territories, lacking a fully autonomous form of government, and without many of the institutions, services and conveniences enjoyed by the people in other parts of the Dominion. Today these three provinces are as well organized, as up-to-date, as well served in most respects and better in some, than the older provinces.

Twenty-five years ago, with the exception of the main line of the C.P.R. and a few north and south branch lines, this western country lacked railway facilities. Today the whole country is criss-crossed by numerous main lines east and west, and by branches radiating out in all directions, while hundreds of additional miles of branch lines are being constructed every year. In this short space of time, Saskatchewan, the central of the three provinces, has out-distanced every province except Ontario in railway mileage.

During these twenty-five years the production of the West has doubled and trebled and re-trebled; hamlets have become villages, villages have grown into towns, towns have developed into modern cities; municipal systems have been created which compare favorably with those of older lands; courts of justice have been organized; thousands of schools have been erected; high schools, collegiate institutes and universities established; great elevator systems have been created; the telephone has been carried into the most humble rural home.

The old ox-cart, the wagon, the buggy, has given way to the automobile; the single furrow plough and yoke of oxen has been superseded to a large extent by the tractor and gang plough; the winding trails leading across the prairie, up hill, down dale, and through the valleys to the far distant little railway station, calling for days and nights on the road to market a load of grain, have been converted into well built earth roads, graded to a standard, with bridges and culverts eliminating the old mudholes. Tens of thousands of miles of these good market roads have been built in the last ten or fifteen years, and millions of dollars thereby saved to the people of these provinces.

But are the people satisfied? Not a bit of it. When the well designed, properly graded and constructed road, with good drainage, bridges and culverts replaced the old rutted trail and ungraded road, the people were enthusiastic and more than satisfied. But the best of earth roads makes hard going after days of rain, and roads which were regarded as eminently satisfactory even three short years ago, are now roundly criticized and condemned because they are not all-weather roads.

The West is impatient. In many respects it is an excellent quality. The West is not and never will be content with less than the best. And what it wants, it wants immediately. It is impatient at delay. Take this matter of roads. If other provinces, states and countries can have gravelled roads and paved roads, why can't the West have them? Well, the West can have them if the people of the West are prepared to pay the price. But Ontario and Quebec, and the States to the south, and the countries of Europe did not enjoy hard-surfaced highways when they were only twenty-five years old, and when their populations were small, and their accumulated wealth not great. These things came to them gradually. But the West is impatient. We are living in an age of rapid improvement, and the West must have everything others have irrespective of its numbers or wealth.

It is not sufficient that in twenty-five years the West has created great provinces out of virgin territory, and supplied its people in that short space of time with institutions, public services, and conveniences which other and older, and wealthier lands took hundreds of years to provide. Thus it is that in Alberta the U.F.A. Government, under Premier Brownlee, the Liberal Government, under Premier Gardiner, in Saskatchewan, and the Bracken Farmers' Government, in Manitoba, are all under fire because they have not gravelled or paved many thousands of miles of roads, although in order to do so the public debts of these provinces would have been enormously increased and the taxes imposed made much heavier.

And no sooner are roads gravelled than a new demand is made. In Manitoba complaint is now made that these gravelled roads are too dusty, and the Government of that Province is called upon to remedy this condition. In Saskatchewan, a proposal is calmly made that there should be paved roads provided, running from the United States boundary through the province to the northern edge of settlement, and that at least two other paved roads should be constructed right across the province from east to west,—a good thousand miles of paved highway at a cost of many millions of dollars.

And along with the demand for more roads, better roads, gravelled roads, oiled roads, paved roads, is coupled the demand for reduced license fees for automobiles, and the rebatement to municipalities of a goodly portion of the money now collected; in a word, for reduced taxation on the people. It is a peculiar situation. All Governments being urged to spend millions more and to collect very much less.

Yes, the West is impatient, and, at times, apt to be a bit inconsistent, too.

Leading Athletes

W. N. U. 1750

Would Eliminate Punctures

A new type of wheel having two tires, one within the other, and said to be adaptable either to motor or trolley cars was exhibited recently. The outer tire is of solid rubber, the other, inside it, is of pneumatic and is incased in a steel frame next to the hub. This arrangement is said to take the strain from the outer tire while the inner one acts as a shock absorber. Punctures are also eliminated.

Courtesy opens many doors and lack of courtesy leaves them open.

Decrease In Fish Catch

Production In Canada During July Less Than Last July

A decrease in the total catch of sea fish on both Canadian coasts was recorded during July last as compared with July, 1927. In July last, the total catch amounted to 87,072,800 pounds, valued at \$2,712,332, as against 87,451,900 pounds valued at \$3,166,634 during July, 1927.

On the Pacific coast, the catch of halibut during the month under review was 3,608,200 pounds; while the catch of the preceding year was 3,712,400 pounds.

COMPLETELY RUN DOWN

Symptoms That the Blood Is Thin Should Not Be Neglected

Weak, run-down, lacking strength, energy and ambition, nervous, sleepless, poor appetite, digestion disturbed—these are the symptoms named by a great majority of people who have been benefited by the use of Dr. Williams' Pink Pills. These tonic pills correct the condition described and if you have any of these symptoms you should give these pills a trial. Their great value in cases of this kind is shown by the statement of Mrs. James A. Tibbetts, Halifax, N.S., who says: "I was completely run down in health. My blood was thin and watery, and my nerves so bad that I did not sleep well at night. My appetite was poor and the least exertion left me weak and trembling. When I went out I would have a severe headache, and would have to lie down as soon as I got in the house. A friend advised me to try Dr. Williams' Pink Pills. I soon found they were helping me and by the time I had taken the sixth box I felt like a new woman, and have enjoyed good health ever since. For this reason I can highly recommend the pills to anyone run-down or troubled with their nerves."

Not only do Dr. Williams' Pink Pills help the nerves. Their main function is to enrich and increase the blood, and as the blood supplies the whole body, new life is given to the entire system. Better sleep, steady nerves, improved appetite, increased vigor—all these can be yours by taking Dr. Williams' Pink Pills. Begin them today. Sold by all medicine dealers, or by mail post paid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Pictures From Arctic Cruise

Having completed her annual cruise into the ice-filled waters of Baffin Straits to within 600 miles of the north pole, the S.S. Beothic, of the Canadian Government Arctic expedition of 1928, has returned safely. In her itinerary, the ship followed a course of more than 7,000 miles, frequently under conditions of extreme severity. This voyage was made in six weeks.

Like a Grip At the Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passages as thousands can testify. It is sold by dealers everywhere.

Fruits of Peace River Country

Plums, apples, raspberries and other fruits are now being grown in the Peace River country, 200 miles north of Edmonton. Successful experiments in respect of these fruits were conducted at the Dominion Experimental Farm at Beaverlodge.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

Agriculturists Are Contented

"I talked with at least one hundred farmers," said Senator Shipstead of the United States, after concluding a trip through Western Canada, "and I failed to find one who was in any way dissatisfied."

Corns are painful growths. Holloway's Corn Remover will remove them.

Montreal's Population

Montreal's population is 1,032,385 according to the estimate contained in the 1928-29 Montreal directory. Greater Montreal is estimated to have a total population of 1,176,461.

Minard's Liniment cleanses cuts, etc.

Building Model Farms

In Reclaimed Areas

Government Schemes To Stimulate Land Sales In Sumas, B.C.

To stimulate the sale of British Columbia Government land in the Sumas reclamation area, Provincial officials are about to establish there three model farms, with buildings and complete equipment, to be sold as going concerns. The proposal, as outlined by Hon. E. D. Barrow, Minister of Agriculture, is that three complete farm units shall be created on choice Sumas land at Government expense. In every way they will be models of modern agricultural methods, with houses, barns and machinery. It is believed they will be sold without difficulty, but the main purpose is to attract farmers to the district and to encourage the establishment of first-class farms of similar character there.

Defective Vision In Children

Willie can now have a new alibi when he fails to pass his school examinations. According to W. A. Blocker, chairman of the convention committee for the Guild of Prescription Opticians of America, eyestrain and defective vision is retarding 2,100,000 school children in their studies.

Travelling By Airway

2,000 Passengers Fly Across English Channel in Five Weeks

Statistics just published show that Britain is rapidly becoming air-minded. Every week for the last five weeks more than 2,000 people have taken the once perilous air journey across the English Channel. This is an increase of more than 500 over the highest figure for last year.

During the busiest air week last year less than 1,500 people took advantage of the quick service from London to Paris. London now has air trips to 73 European cities. There are nine scheduled services each day to Paris, the first at 6 a.m. and the last at 4.30 in the afternoon.

More than 50 per cent. of the cross-channel passengers are women and they have included the extremes in age, babies travelling from time to time as well as the septuagenarian, octogenarian and once a man of 90.

EVEREADY Dry Batteries

—they last longer

RECORD CROP IS BEING GARNERED IN THE WEST

Winnipeg.—The rush to move what is estimated as the largest wheat crop in the history of the Canadian West is on in earnest with many thousands of bushels of grain being marketed daily. The rush is earlier than ever before, railway officials said.

With threshing reported general all over the West, cutting completed in Manitoba, and more rolling stock and general equipment massed at strategic points on the prairies than ever before, indications are that the whole operation of taking off the crop and marketing it will be completed in record time.

Cutting is reported as practically completed in Saskatchewan and well advanced in Alberta. Interior elevators are swept clean and ready for the pouring-in of the new grain. Stocks in the lake head terminals have been reduced to 4,531,000 bushels.

Reports of wheat yields are favorable on the whole and at most points the grading is high.

U.S. Fishing Boat Seized

American Boats Detained By Customs Patrol At Coast

Victoria, B.C.—Seized by H.M.C.S. Thiepvall and the Canadian customs patrol boat Despatcher while in a cove on the west coast of Vancouver Island near Clayoquot, two United States fishing vessels, the Marmot from Tacoma, and the Chief Seattle, from Seattle, were brought into Victoria harbor recently.

The two boats and the two occupants of each were handed over to the collector of customs for detention, while the facts of the case were wired to the Federal Department of Marine and Fisheries at Ottawa.

The two fishing crafts were found in Canadian waters recently, and although they were not fishing at the time, things looked suspicious and they were seized. The occupants said that they had taken shelter in the cove from a storm which they thought was approaching.

Drilling For Oil At Unity

Unity, Sask.—Unity Valley No. 2 well shows oil sands in tailing from nine inch casing at depth of 2,160 feet. Sand from tailings smells plainly of crude petroleum. A test with chloroform shows good oil extracted with no water to fight, and appearances are all favorable. Drilling is continuing carefully. Gas is showing as in former well. Expect oil soon.

To Seek Noble Craft

Rome.—The dirigible N-5, a sister ship of lost Italia, is being prepared for a final attempt to locate those of the Italia's crew last seen with the gas bag, says Gionale d'Italia. The dirigible will have Maibach motors and in a few technical details will differ from its ill-fated predecessor. It is said General Nobile himself is supervising the work.

Driver Did Not Stop

St. Louis, Mo.—A hit-skip motorist whose automobile struck and killed Jeremiah Horian, allowed his body to ride on the front bumper of his car for 50 feet and then fall under the automobile, where it was run over by the wheels of the car, witnesses said. The driver of the car did not hesitate.

Egypt Will Sign Pact

Cairo, Egypt.—The newspaper Al Saissah says the Egyptian Government has handed the American charge de affaires its reply to the invitations to adhere to the Kellogg-Briand pact renouncing war, the reply being so worded as to safeguard the full rights of Egypt.

Canadian Is Appointed

Geneva.—Hon. Philippe Roy, first Canadian Minister to France, was appointed official reporter on the question of settlement of Bulgarian refugees and the Bulgarian stabilization loan, at a session of the League of Nations Assembly.

W. N. U. 1750

Distribution In October

Saskatchewan Pool Money Will Be Paid Next Week

Regina.—Although a despatch from Calgary stated that \$1,600,000 net profits would be distributed to Alberta Pool members within the next 10 days, D. McRae, manager of the Saskatchewan Pool Elevators, states that distribution to Saskatchewan members will not take place until next month.

Stating that each province determined on its particular policy, Mr. McRae said: "Our policy for this is not announced until the financial figures are complete." It will be 10 days or two weeks before the Regina office will have a statement. The statement has to be submitted to the delegates of the Pool before it is made public.

Handwriting By Telegraph

Facsimile Messages Now Despatched Under New System

New York.—A telegraph service whereby a message is delivered in facsimile characters was inaugurated recently by the Postal Telegraph and Cable Company.

By this new system a person may scrawl a message on a blank in New York and in the same time that it takes to deliver a regular telegram the same scrawled message can be delivered in various parts of the country through a telephoto process.

The cost of this new service is one and one half times the ordinary telegraph service.

The same company also introduced recently a photograph service whereby pictures may be transmitted.

Is Not Resigning Post

Sir Austen Chamberlain Expects To Resume Work In November

London, Eng.—Following alarming reports regarding the health of Sir Austen Chamberlain, foreign secretary, it is learned in medical and other well informed quarters that there is no reason to suppose that the minister will not return from his trip to the West Indies and North America in good health.

An attack of bronchial pneumonia following strenuous work during the past year left Sir Austen in a weakened condition, but it is believed that rest and change will restore him to health and will enable him to resume his duties on his return in November.

Purchase Northern Mine

The Pas, Man.—Colonel Orbelain, of New York, representing certain mining interests in the American city, has purchased the Pat. Pine, Neosap and other groups of claims near Athapapuskow at Sourdough Bay from the Baker Patton interests for a sum which is reported to exceed \$500,000.

Receives Ottawa Appointment

Prof. Lester B. Pearson, of the University of Toronto, who has been appointed a first secretary of the department of external affairs at Ottawa. Mr. Pearson is a professor of modern history. He coached one of the university football squads for several years and was graduate coach of the hockey team last season. He is a graduate of varsity and attended Oxford for a year.

Given Command At Coast

Major Ball Has Been Promoted To Rank Of Lieutenant-Colonel

Ottawa.—Announcement was made by the Department of National Defence that Major C. E. Ball has been promoted to the rank of lieutenant-colonel and to command of the 11th machine gun battalion in Vancouver. He will succeed Lieut.-Col. H. T. Logan, who has been transferred to the reserve of officers. Lieut.-Col. Ball served with the 11th Battalion, C.E.F., in France and Belgium, being wounded and invalided home in November, 1917.

Explorer Seeks Clemency

Dr. Cook Asks President Coolidge To Shorten Sentence

Fort Worth, Tex.—Dr. Frederick A. Cook, Arctic explorer and oil promoter, now serving a 14-year and nine months sentence in the United States prison, Leavenworth, recently sent an appeal for executive clemency to President Coolidge.

The petition, prepared by Dr. Cook from his cell at Leavenworth, asks that the president commute the sentence to the time already served and remit fine and costs assessed in United States district court.

Zeppelin Ready To Leave

Friedrichshafen, Germany.—Director Hugo Eckener, of the Zeppelin works announced that the newest and biggest dirigible, "Count Zeppelin," would leave for the United States on October 12, anniversary of the departure of the Los Angeles.

Interested In Wheat Pool

British Government Might Buy Wheat From Pool If Ramsay MacDonald Becomes Premier

Winnipeg.—If Rt. Hon. J. Ramsay MacDonald again becomes premier of Great Britain, his government may buy its wheat requirements from the wheat pool.

Mr. MacDonald on arrival in Winnipeg had lunch with representatives of the pool. It is understood he discussed the question, in which he has shown a lively interest. He is anxious to know at first hand the prospects of such a step eventually being taken.

The question of direct relations between the British Government and Canadian co-operative marketing agencies has been increasingly discussed in recent years. It is favored by many as an important step in Empire relations, but on the other hand is looked at askance in some quarters as favoring too much of socialism.

Plane At Saskatoon Seized By Mounties

Pilot Charged With Failing To Comply With Regulations

Saskatoon, Sask.—Royal Canadian Mounted Police seized an aeroplane operated in Saskatchewan, with Saskatoon as a base, by Norman Cherry, of the Cherry Airways, Ltd.

The plane was seized by the police acting upon instructions from the Civil Aviation Branch of the Department of National Defense. It is understood that Cherry had failed to comply with certain regulations governing the operation of a plane for commercial aviation in this province.

Cherry arrived here from the United States this spring and has been operating throughout the west.

Famous Watch Maker Dead

Robert Ingersoll, Originator Of the Dollar Watch, Passes Away At Denver Sanatorium

Denver, Colo.—Robert H. Ingersoll, watch manufacturer and originator of the well-known dollar watch, died here at a sanatorium where he had been a patient since June 17.

Mr. Ingersoll was 69 years old and was born on a mortgaged farm in Michigan. Ingersoll and his brother Charles, capitalized Ingersoll's idea that watches could be made cheaply. The firm of Robert M. Ingersoll and Brother manufactured and sold more than 70,000,000 dollar watches.

Industrial Disputes

Ottawa.—Time lost in industrial disputes in July, 1928, was slightly less than during June, 1928, but almost double that during July, 1927. Eighteen disputes were in existence at some time or other during the month, involving 2,449 work-people and resulting in a loss of working time of 23,793 days.

COMPETITION IN FIELD CROPS

The village of Bounty, Saskatchewan, on the Moose Jaw-Macklin line of the Canadian Pacific Railway came into prominence at the Saskatoon Exhibition this year by winning a majority of the trophies offered for competition in field crops. The cups won by the Bounty boys were those donated by Quaker Oats, John East, Butler Byers, and the Kiwanis Shield. The names of the boys are, reading from left to right:—standing, Howard Sibbald, Harold Smith, John Gilchrist, Howard McPhadden, reserve grand aggregate winner: seated, Roy Matheson and John McCay.

ENTRANTS FAIL TO FINISH COURSE IN WRIGLEY SWIM

Lake Shore, Toronto.—Lake Ontario was victor in the third Wrigley's marathon swim. Its chilly waters saw the defeat of some of the world's most famous swimmers and none of the 199 starters had sufficient stamina to finish the 15-mile struggle.

Georges Michel, French conqueror of the English Channel, who last year finished second in the 21-mile marathon, was taken from the water at 10:12 p.m., after completing 12 1/2 miles of the course in 11 hours, 42 minutes.

He had been the sole survivor since 6:42 p.m. when Ernest Vierkoetter, of Germany, the 1927 champion and Louis I. Mathias, of Long Island, N.Y., had fallen victims to the cold.

Vierkoetter was forced out after leading most of the way and completing two-thirds of the course. Michel was then the only swimmer left in the race.

The Frenchman, his flagging energy being constantly renewed by stimulants which consisted mostly of brandy, was swimming slowly and unsteadily under the glare of floodlights early in the night.

At 8:45 p.m., nearly ten hours after the 15-mile race started, the French swimmer had about four miles to go.

Nova Scotia Legislature Has Been Dissolved

Provincial Election Is Set For October First

Halifax, N.S.—The Nova Scotia Legislature has been dissolved. This was announced by Premier E. N. Rhodes, here, following a session of the executive council.

A provincial general election is set for October 1, with nomination day on September 24.

Coincident with the announcement of dissolution, Premier Rhodes, who leads a Conservative administration, issued his manifesto to the electors. In it the premier reviews the activities of his government, which assumed office following the election of June, 1925. He compares the present condition of Nova Scotia with that in which the province found itself prior to his taking over.

It was during Premier Rhodes' regime that the Legislative Council was abolished, and the manifesto is introduced by a reference to this.

Find Post For McAndrews

Washington.—William McAndrews, former superintendent of Chicago schools, who was forced out by Mayor William Hale Thompson, is being considered, among others, for the post of United States commissioner of education. It is learned at the interior department. Dr. J. J. Tigert, of Tennessee, recently resigned.

Welcome For Rockford Flyers

Rockford, Ill.—Mayor Bert Allen, of Rockford, met with members of the chamber of commerce and the "Greater Rockford" flight committee here recently to frame plans for an elaborate welcome to Bert Hassell and Parker Cramer, when the two return from Greenland.

Harvested Valuable Crop

Belleville, S.D.—George Whyte, farmer living near here, claims to have harvested crops valued at three times the price he paid for his farm. Whyte sold his flax crop which yielded 10 bushels an acre, for \$3,000. He paid \$1,000 for his 160 acre farm.

Would Ban Liquor

Geneva.—Women of five Northern Europe states, Finland, Sweden, Denmark, Estonia and Latvia, have founded a "Union for Alcohol-free Culture," by which they hope to suppress the use of alcohol in homes and at school gatherings.

Girl Stowaways Fined

Glasgow.—Janetta and Margaret Doherty, of Montreal, Que., and formerly of Hamilton, Lanarkshire, were fined £4 each or 20 days' imprisonment when they appeared in court here charged with stowing away on the liner Letitia.

SUPPORT CANADIAN INDUSTRY

The effort of the Okanagan Valley Boards of Trade in their campaign against the withdrawal of protection afforded the fruit and vegetable industries, especially fruit, by Orders-in-Council which made effective the anti-dumping clauses of the Customs Act, which have been cancelled, cannot pass unnoticed.

Prairie residents, urban as well as rural, possibly do not realize the damaging effect it will have, not only on the British Columbia fruit industry, but other sections of the Dominion as well—Ontario and Nova Scotia. Possibly we do not appreciate the result, should we be forced to depend on the American producer in Washington state, when the Canadian fruit farmer is out of business when the U.S. grower will have us at his mercy. Prices will go sky high. We will be obliged later to pay enormous prices for our requirements. The adage, "An apple a day, keeps the doctor away," will not reverberate in our homes. Beautiful boxes of B.C. fruit will not be displayed in our stores; they will be replaced by boxes carrying an American label, packed in American packing houses. We will realize then that part of the cost of that box of fruit or vegetable has gone to pay the freight to American railroads, a part has remunerated American labor, a portion has gone to American printers to pay for the labels; yes, and the wrappers on the fruit were possible manufactured in Canada from Canadian pulp, sent over the line and brought back again!

The Vernon News, the leading journal in the Okanagan Valley, in its commendable campaign of education as to the dire results should the fruit grower in that section be forced out of business, says in part:

"The facts are that the fruit growers in Canada cannot survive unless they are protected by the tariff against the dumping of surpluses of United States export houses on their natural, their home markets. It is not that they cannot produce so cheaply—that has nothing to do with it. It is simply that the Americans, in order to protect their home market and to obtain a profitable price therein, will dump their surplus into Canada as the market cheapest of access. They will obtain all they possibly can in this market, but they will use it without regard to the loss they take. The dumping of two, or even five, or six per cent., of their crop, causes them no concern if they secure a neat profit at home, while the dumping of such a quantity in Canada ruins the Canadian grower.

"In years when the United States growers have no surplus, they will not have any supply for the Canadian market and, although fruit might and no doubt would be cheap in years of heavy production, it would be very dear when supplies are required to meet United States demand.

"The fruit growers of B.C. have not shown a disposition to gouge the Prairie consumer. Proof of this assertion is afforded by what happened in 1927, when the North American fruit crop was short. In that season, under the supervision of our Committee of Direction, the B.C. crop was sold, largely on the Prairies, at a price level approximately fifty cents per box lower than American prices. The Americans, having no surplus, were not interested in selling fruit in Canada. The B.C. prices were set lower than American quotations because it was considered desirable to cultivate the goodwill of the Prairie consumers, so that they would purchase more of our fruit in heavy crop seasons. And the consumers are ful-

filling expectations in that respect this season. The Prairie people have bought more B.C. fruit than ever before, but, unfortunately for the producers, at prices which are ruinously low.

"This fly in the ointment is due to the action of a few members of parliament, who succeeded in bringing about the removal of the anti-dumping regulation. If it is not restored, the fruit industry of British Columbia cannot possibly survive. This inevitably means that, in the course of a few years, the Prairie consumers would constitute a high-priced NON-COMPETITIVE market for American shippers. Is it not better that the Prairie Provinces should be assured of ample supplies of fruit grown by Canadians, much of it by men who did their bit in the World War, at reasonable prices, than that a policy should be pursued which in the end will subject Prairie consumers to the exactions of foreign producers?"

What can we in Didsbury do to insure the Canadian grower protection in the fruit and vegetable market? Should the worst come to pass; should the officials at Ottawa fail or refuse to appreciate the calamity which might result if the anti-dumping clause of the Customs Act is not put in force again, we will see the American grower and shipper wax fat on an easy market. We cannot boycott them. We've got to have fruit, that's all there is to it.

We could assist in the campaign by a protest to Ottawa if we possessed a Board of Trade or a live organization. It looks as if the small towns, with their finite facilities and few or no organizations, will be tied down to silence. It's up to such centres as Calgary and Edmonton to help us out. Not only us. We are in the grain business, but we can assist our sister provinces by buying their products. They depend on us for their bread. Here's a real chance for co-operation.

THE CIVILIZING FORCE

According to one conception, the love of money is the root of all evil; according to another, it is one of the great principles that moves the world. It is not deniable that love of money leads to the commission of many crimes. On the other hand, what would be the material and moral state of the world were there no passion for wealth? We would have few of the comforts and conveniences that are now available to most of us if most of the people were indifferent to money; did not care greatly for it or for the things that are to be had in exchange for it.

All the great discoveries in science and every one of the great inventions that have been made might have been brought forth if nobody cared for money. But they would not have been turned to account. Knowledge is useful only when employed to the general advantage. If there were no love of money there would be no capital to exploit the products of science and invention, nor would there be incentive to engage in the manufacture and distribution of the great mass of devices that have become necessities to us. People would be born, struggle along through a space of time to secure a bare living, and die. They might or they might not be concerned about a future state. Whether or not they were, they would be kept as busy as we are finding the things they required. And they would be as ruthless about it as twentieth century man is often alleged to be in the quest of money. Primitive civilization was more brutal than ours is. In the process of refinement through which he has passed during the successive centuries man has denounced as criminal behavior that which could not be condemned in earlier times because it seemed to be necessary for individual preservation.

In the pursuit of money today there is a minimum of injustice. At any rate, everybody gets a chance to secure a share of the general store of wealth, usually enough for his needs, and at the same time may enjoy the fruits of intelligence and industry. More, everybody who works for money nowadays makes a contribution to the common welfare. The love of wealth moves the world a great deal; it may be responsible for considerable evil. However, our progress has made it possible to supply most legitimate wants, legitimately, hence there is less need to resort to devious ways to secure money.

Mr. L. Baker, father of Mrs. Dr. Liesemer, left Tuesday for his home in Harrowsmith, Ont.

LOCAL & GENERAL

Mr. Cecil Studer was a visitor to Calgary on Tuesday.

H. O. Tonjum was a business visitor to Calgary Thursday last.

Mr. Bob Rood has accepted a position as teacher near Edmonton.

Mr. N. Lammle returned from Banff on Saturday.

Mr. J. V. Berscht has now a very attractive sign on the north side of his store.

Mrs. F. Mertens left on Tuesday for Strathmore where she will visit friends.

Rev. A. E. Hayes and C. Gibbs were business visitors to Calgary on Tuesday regarding the new church.

Mr. and Mrs. Stewart Tighe were visitors to the southern city last week.

Mr. Theo. Folkman left on Monday for Edmonton where he will attend college.

Mr. Woolner of Kitchener, Ont., was a business visitor in town last week.

Mr. Bennie Robinson returned to Didsbury on Monday after a two weeks' holiday.

Ed. Shand was present at the Highland gathering held at Banff last week.

Mr. William Teskey of Calgary was a visitor at his home in Didsbury over the week-end.

Mr. A. J. Allen left on Tuesday for a two week's holiday at the Coast.

Miss Esler who has been the guest of Miss Winnie Studer for the past week returned to her home in Calgary on Sunday.

Mrs. G. Oldham and children left on Tuesday for their home in Portland. She was accompanied by her mother Mrs. F. Murray.

At the movies Wednesday, Sept. 19th, the wonder dog Rin-Tin-Tin in "Rinty of the Desert," with Audrey Ferris and Carroll Nye.

Snell & Carter, Registered Optometrists, Red Deer, will be in their office over the Royal Bank, on Monday, September 24th. 38-2

Mr. and Mrs. C. H. Rinehart returned Monday from a four months' motor trip to the middle States visiting friends and relatives.

Many local alarm clocks will be ringing early Saturday morning next, September 15th, the opening day of the duck season.

Mr. and Mrs. J. Leowen of Beatrice, Neb., were visitors at the home of Mr. and Mrs. Harry Gabel recently.

Marion Davies in her finest comedy "The Cardboard Lover," at the movies, Didsbury, Saturday, September 15th.

Geo. Schade formerly with Cressman Bros., is now employed with J. H. Brand, General Merchants at Staveland.

H. O. Tonjum is leaving on Saturday on a business trip by motor for Herbert, Sask. He will be away for about two weeks and during his absence Mr. H. M. Reiber will have charge of the office of the North End Lumber Co.

The Ladies Aid of Knox United Church will hold a silver tea from 3 to 6 o'clock and a chicken dinner for the business men and any others who wish to come, from 5.30 to 7 o'clock next Sat., Sept. 15 at the residence of Dr. J. L. Clarke's. 38

The Inter Nos Club of Olds are commencing their Saturday night dances on September 15th. For the time being the dances will be held in the Olds Agricultural Society Exhibition building on the Fair grounds. Good Floor and Good Music. Everybody welcome.

Advertisement

It takes a sharp knock to break an egg from the outside, while a little chick with its soft bill can break it easily from the inside. It is the same way with a town. The knocks from the outside have little effect; it is the blows from the inside that hurt. It would be a good thing for any town if the home knockers would do the same thing as the little chicks do—get out!

WHEAT POOL NOTES

The Central Selling Agency issued an official statement August 27th by E. B. Ramsay, Secretary and Manager, announcing that the initial payment for the 1928-29 crop will be 85 cents a bushel, basis No. 1 Northern, at Fort William and Vancouver.

"The Wheat Pool Board in taking this step is following the same consistent policy pursued from the formation of the Pool," Mr. Ramsay stated.

"The initial payment made by the Alberta Pool when it began operations in 1923 was 75 cents per bushel. The initial payment for the four subsequent years was \$1.00 a bushel. The initial payment has always been based upon market conditions at the opening of the crop year and bears no relation to the price per bushel ultimately received by the Pool members.

"We are starting the new crop year practically sold out. The rumors which have been circulated during the past summer in respect to the large stocks of wheat held by the Pool are therefore refuted.

"The recent Pool interim payment which brought the payment already made to our members for the last year's crop up to \$1.40 per bushel, basis No. 1 Northern at Fort William and Vancouver, should have made any reference to such absurd rumors unnecessary. The endorsement of the Pool by the great majority of grain growing farmers of Western Canada who have signed up for another five-year term is sufficient proof that the faith of our members in orderly marketing has not been shaken."

The Wheat Pool has never guaranteed an initial payment, an interim payment, or a final payment. Neither has the Pool ever claimed it could fix the price of wheat at a given point. These statements are well-known facts. What the Pool does guarantee is that the members receive a fair average price covering a year's operations. Without a Wheat Pool the farmers of Western Canada would be in a far more serious situation right now. They would be faced with the necessity of dumping a large crop on a surfeited market over which the "bearish" element has gained a nominal control. With the Pool functioning the farmers may have hope and confidence.

While the Wheat Pool directors very naturally would have preferred to have retained the initial payment at the \$1.00 figure as originally announced, they followed only a policy outlined by safety and good business principles in reducing the amount. They are custodians of the property and interests of Pool members and as such, are guided by a policy founded on common-sense.

GLIMPSES FROM THE PAST

20 YEARS AGO

A. G. Studer was a Calgary visitor last week.

The local football team was defeated 1-0 by Olds at the Labor day celebrations at the northern town.

The agricultural society has made a new department in its prize list for horticultural exhibits.

Didsbury markets: Steers, grain fed 41-2c; Veal dressed 5 00; Hogs live 5 50, dressed 6 00; Mutton dressed 13c; Hay, upland 5 50, timothy 16 00; Wheat No. 1 Northern 75c; Oats 26c; Butter 18c.

15 YEARS AGO

Innisfail suffered a fire loss of \$25,000 Thursday, Sept. 4th when the Methodist Church, Parsonage, Triplet livery barn, Crown Lumber Co.'s lumber yard and several other places were destroyed.

Town Clerk St. Clair left on Wednesday for a two weeks' holiday to points in B. C.

John Bellamy returned from Calgary this week where he took Mrs. Bellamy to the General Hospital where she underwent a serious operation.

10 YEARS AGO

Dave Sinclair is suffering from the effects of a kick on the head by a horse he had just completed shoeing in his blacksmith shop.

The first two entries for the Didsbury Fall Fair to be held Sept. 26 and 27 were made by a boy of 10 years and an old gentleman of 70 years of age.

Trans Canada Mail Flight Successful Feat

The longest cross country sea-plane flight ever attempted ended Saturday evening last when Major A. E. Godfrey, staff officer of the Royal Canadian Air Force, landed his big Fairchild monoplane on the waters of English Bay, at Vancouver, and added another glorious chapter to Canadian air annals.

The huge yellow plane came to rest on the sea at 6:10 in the evening, the landing being watched by crowds of people, who gave the flying major a terrific reception. A small special sack of mail was carried.

The flight was begun from Ottawa Wednesday morning, Sept. 5th and had been made without a hitch, with the exception that the fliers were held up for a day at Edmonton, owing to a bad rain and snow storm.

This is the first time in history that mail has been carried by air across the Dominion, and the success of the experiment has been unqualified.

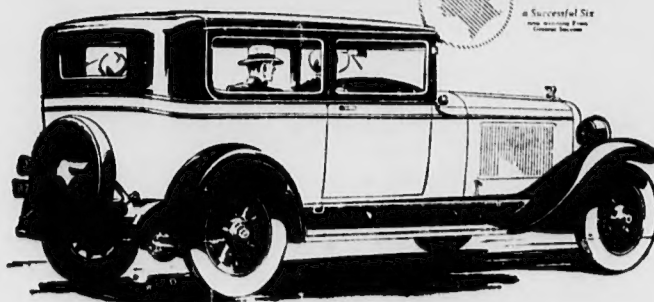

Major Godfrey, who was accompanied by Sergt.-Major M. Graham as mechanic, is scheduled to a tour of the coast and then return to Ottawa by easy stages.

When Joseph Howe was pleading his own case in a libel action brought against him many years ago, he said that some people seemed to think that the freedom of the press meant to read a paper several years and then refuse to pay for it.

IMPROVED in Performance and Appearance

TODAY's Pontiac Six is the most impressive example of value-giving in the whole history of the low-priced six!

Substantial gains in motoring pleasure and economy result from important mechanical advancements, such as a new Marvel carburetor, new manifolding, etc. More intriguing beauty and the much desired air of rugged compactness have been achieved by the use of smaller, smarter wheels and larger tires.

And, beneath all its brilliance of beauty and performance, Pontiac Six is a supremely dependable car . . . a car that sails through a wearing, tearing, day-long drive and finishes with the same spirited freshness with which it started the trip.

Come in and investigate this amazing car—General Motors' lowest-priced six.

Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy.

WORLD HAPPENINGS BRIEFLY TOLD

Reductions ranging from a nickel to 50 cents a bottle are effective in Saskatchewan liquor prices, according to the price list issued by the Saskatchewan liquor board.

Attempts are being made to organize a meeting of countries directly interested in evacuation of the Rhineland, it is understood in League of Nations circles.

Only one-fifth of an inch of rain fell in Vancouver, during the month of August, making it the driest August since the taking of records commenced in 1905.

The Canadian Mail Contractors' Association in convention at Toronto, decided to urge abolition of the contract system and the institution of a salary basis of \$70 per mile per year.

The New South Wales cabinet has approved the proposal of the state agricultural department to import high quality Aberdeen Angus cattle from Canada as part of a scheme to improve the export beef trade, particularly baby beef.

The U.S. department of agriculture has lifted the embargo on dairy products passing through Montreal. The embargo was placed in effect during a typhoid fever outbreak in the Canadian city. It originally covered 200 miles but has been decreased from time to time.

A new list of broadcasting stations in Canada has just been issued by the Radio Branch, Department of Marine and Fisheries. A careful reading shows that there are four new licenses, while one station has dropped its license, bringing the total number of licenses in Canada to seventy-six. This list supplements the list issued late in June.

Little things console us because most of our affections are little ones.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

Farmers' Marketing Tour

Canadian National Railways' Tour
To Great Britain and
Denmark, 1928

(Continued.)

It was not far from Craigie Mains to Hobsland, the home of Mr. Thomas Barr, the Ayrshire cattle breeder, where, incidentally, we learned that our leader, Mr. Arkell, had spent part of his honeymoon!

It is safe to say that none of us had ever seen a finer herd than that which was shown to us, fine, big, heavy, deep-milking cows, every one a picture of what an Ayrshire ought to be. The 75 cows in milk average between 900 and 1,000 gallons, with one yielding 1,800 gallons, testing 4 per cent. Most of these cows were daughters of champion bulls. Mr. Barr does a great deal of business in Canada, and at this year's Royal Show a large proportion of winners was from stock of his breeding.

In the opinion of the dairymen members of our party, Mr. Barr's byres were the best they had seen. Part of the barns are floored with concrete, part with brick. Mr. Barr maintaining that brick flooring is healthier in winter and results in the avoidance of trouble in the knees and joints of the cattle. It is interesting to note that some of the fields on the farm have been in grass for 70 years. Mr. Montgomery's Lessnessock farm at Ochiltree which we next visited, is best known to Canadians because its name is a prefix to the names of many animals which have helped to make Canadian Ayrshire history. This farm is not far from Mauchline, where the poet Burns had a farm of his own.

Last year 100 Ayrshires were shipped to Canada by Mr. Montgomery. His herd now supplies tuberculin-tested milk by contract to the hospitals belonging to the Municipality of Glasgow, testing 4 per cent. and running up to 4.6 per cent. This herd provides one of the most outstanding examples of grading up milk and butter fat yield. In 1903 he had 40 cows averaging 554 gallons of 3.69 per cent. butter fat over 36 weeks. In 1921, 52 cows averaged 720 gallons of 3.9 per cent. butter fat over 39 weeks, and in 1927, 52 cows averaged 920 gallons of 4.16 per cent. fat over 44 weeks.

It was a delight to see his fine herd of milking cows and the barns and byres which presented an object lesson in clean milk production. An interesting development was the "dehorning" of the calves of Lessnessock, a step which is being watched closely by other breeders. Mr. Montgomery applies a preparation to the calves when they are a few days old which prevents the horns from growing.

The farm of Lt.-Col. Norman Kennedy, D.S.O., breeder of the famous Doonholm herd of Aberdeen-Angus cattle, lies in the very heart of the Burns Country, on the "Banks and Braes of Bonnie Doon," one mile from the poet's birthplace at Alloway. It was a revelation to see selected members of this wonderful herd which has such an enviable record of high awards to its credit at the shows of the Royal Agricultural Society of England, the Highland and Agricultural Society of Scotland; Smithfield, Edinburgh and Perth Spring shows and sales. Outstandingly interesting as were the animals themselves, they were rendered doubly so by the able exposition of the points of the Aberdeen-Angus breed by Mr. James Cameron, formerly agricultural editor of the Glasgow Herald and one of the foremost judges in Scotland, besides having judged at Smithfield and in the Argentine.

We were not allowed to leave Doonholm until Lt.-Col. and Mrs. Kennedy had extended to us the hospitality of their beautiful home on the banks of the Doon, where in the fine grounds we were shown the five trees which were planted by the father of Robert Burns as gardener to the estate.

Interested as we were in these three famous farms, we were glad that opportunity permitted us to visit, if only for a short while, the home of Robert Burns. The wee clay cottage remains almost as it was in

ECZEMA BROKE OUT IN PIMPLES

Had to Keep Hands Out of
Water. Cuticura Heals.

"Eczema started with an irritation and soreness between my fingers. Later it broke out in small pimples which were red and full of water. I had to keep my hands out of water, and could not do my regular work. The itching and burning certainly kept me awake at night."

"A neighbor recommended Cuticura Soap and Ointment so I sent for a free sample. After using it I discovered the trouble was disappearing so I purchased more, and my hands were perfect after using one cake of Cuticura Soap and half a box of Cuticura Ointment."

(Signed) Miss Mollie Hanna, Oxbow, Sask., Oct. 10, 1927.

Use Cuticura to heal skin troubles.

Sample Each Free by Mail. Address Canadian Depot: "Sunshine, Ltd., Montreal." Price, Soap 25c, Ointment 25c and 50c, Talcum 50c.

Use Cuticura Shaving Stick 25c.

Burns' day, even to the furnishings—the kitchen table, the grandfather clock, the straight-backed wooden chairs, the plate rack and china, the hangings and the bed where the poet was born, the barn adjoining, and the cattle stalls. A small home and a humble one, but to be entered with reverence by all who believe in the dignity of labour and the independence of man. Behind the cottage we visited the museum of Burns relics, the Auld Kirk where Tam o' Shanter watched the witches dance; and, not far distant, the "Auld Brig o' Doon," where his mare Meg lost her tail; and the Burns Monument.

Our excursions from Glasgow gave us little time to see the city itself, although all of us took opportunity to stroll along the famous Sauchiehall Street. Broad, with handsome shops on both sides, this fine thoroughfare is full of interest, and mirrors in its bustle and activity the vigorous spirit of this great industrial city.

Canada's trade connection with Glasgow is close. Glasgow has always favoured the removal of the embargo that was placed on Canadian cattle, and the proportion of cattle licensed out for stores was greater than at any other port. Glasgow, along with the rest of Scotland has also formed a high opinion of Canadian hams and bacon.

It was with special interest, therefore, that we visited the Glasgow Corporation's Merkland Wharf at which cattle and pigs are landed. There are no finer facilities in the British Isles. The accommodation is for 4,600 head, and includes three sales rings, a large number of killing booths and excellent cold storage for carcasses before removal direct to buyers, butchers' shops or to the meat markets in the east end of the city.

And now, as guests of the Corporation of Glasgow, we were to attend our last official luncheon in Great Britain. We took our seats in the great banquetting hall, the Lord Provost, Sir David Mason presiding.

(To Be Continued.)

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective is mild.

Record Breaking Air Mail Cargo

18,000 lbs. Of Mail Carried By Fleet Of Planes

A fleet of 18 airplanes, each laden with a half a ton of mail, landed at the municipal airport at Chicago recently and established what is believed to be a new record for shipments by air mail. The fleet, chartered by a Lansing, Mich., manufacturing firm which sent out almost 350,000 pieces of mail in their record-breaking cargo, carried approximately 18,000 pounds.

The Lansing Company's postage on the shipment amounted to more than \$13,000.

Bicycles Popular In Holland

Bicycles are popular in Holland, where there is one to every 2½ inhabitants. This is attributed to the fact that there are practically no hills in Holland. The importance of the machine is recognized by the authorities in that they provide separate bicycle roads running parallel to the other roads.

Helping the Doctor

Dr. Charles H. Mayo, now tells in complete detail just exactly how to run a newspaper and the Ohio State Journal is thinking of writing a two-column editorial on the technique of removing the gall bladder, in case he'd like to know.

Lodger: "Did you ever see anything so unsettled as the weather?"

Landlady: "Well, there's your bill."

SUNDAY SCHOOL LESSON

SEPTEMBER 16

PAUL WRITES TO HIS FRIENDS
IN CORINTH

Golden Text: "Behold, how good and how pleasant it is for brethren to dwell together in unity!"—Psalm 133.1.

Lesson: 1 Corinthians 1-4.

Devotional Reading: Ephesians 4:1-6.

Explanation and Comments

Exhortation To Unity, 1 Corinthians 1:10-13.—Through members of the household of Chloe, Paul learned that there were contentions among the members of the church at Corinth. It has been inferred that Chloe was a business woman of Ephesus who had sent slaves to Corinth in the pursuance of her trade, and that on the return of the latter they had brought back this news to Paul, who was then at Ephesus. If they had belonged to Corinth, it is argued, Paul would hardly have exposed them to reprisals by this disclosure in his letter. After his salutation and words of thanksgiving (verses 1-9), Paul takes up this report and appeals to his readers to be of one mind. "I beseech you, brethren, through the name of our Lord Jesus," he wrote—a name which should be a reminder to them of their oneness as His disciples—"that ye all speak the same thing," that you agree in calling Christ your Leader, "and that there be no divisions among you."

A sadly needed bit of counsel this for our day! It is said that in one of the great cities of England a quarrel arose among the firemen, and at the first fire which they were to fight instead of putting out the flames they turned the hose on one another. This is a picture of what many Christian groups are doing today. The remedy is given by the Persian poet Sa'di:

If the litigious knew the taste
Of friendship with the Friend,
Think you that their life would waste
In quarrels without end?

"That ye be preferred together in the same mind and in the same judgment," continued Paul.

"Nothing doth so much keep men out of the church and drive men out of the church, as breach of unity."—Bacon.

There were three parties in the church at Corinth, Paul had learned, which were called by the name of the leader which each admired the most and regarded as most important; the adherents of Paul, those of Apollos and those of Cephas, or Peter. Then there was also the party "of Christ," which may have arisen as a protest against calling any man the leader of the church. To use the name of Christ as a watchword of a party must have seemed a terrible thing to Paul.

"Is Christ divided?" Paul questioned. Is Christ made a part of the whole instead of the whole? By this question Paul expresses his horror at the thought of degrading Christ to the level of his human messengers. "Was Paul crucified for you? Or were ye baptized into the name of Paul?" he continues. By the crucifixion of Christ they were saved, by baptism they were dedicated to Christ's service; it was inconceivable that they could put others on a level with Christ.

One may say, I am of Paul; another, I am of Apollos; but let neither forget that both Paul and Apollos are disciples of Christ, and remember the words of Christ Himself: "I pray for them; that they all may be one, as thou, Father, art in Me, and I in Thee, that they may be one in us."

The Oil Of The People.—Many oils have come and gone, but Dr. Thomas' Eclectric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

Alberta Elevator Construction

250 New Elevators Have Been Built In Province This Year

Approximately 250 new elevators have been constructed throughout Alberta this year, it is estimated by local grain men. The total capacity of these elevators would be about 18,000,000 bushels, it was stated. Complete figures for elevator construction in the province were not available, but grain men stated that extension of facilities had been progressing rapidly in all parts of Alberta. The capacity of the elevators varied from 35,000 bushels to 140,000 bushels. The Alberta Wheat Pool alone has 110 more elevators this year than in 1927 and practically all the public grain elevator companies have increased their storage capacity.

British Columbia Exporting Eggs

Three years ago British Columbia was importing eggs. This year that province has already exported over 200 carloads.

Veterinaries use Minard's Liniment.

The flat, stale taste which you sometimes find in tea may be due to the package it is put up in. Red Rose Tea is of such fine quality that no chances are taken. It is packed in aluminum, the only material that gives complete protection against dust, dampness and deterioration.

CHAPTER I.

Jangling his keys on their big ring, the sheriff led John McLean down several steps, then through a long, narrow hall to the rear of the jail. From a distant corridor came the sound of a raucous voice attempting to sing one of the popular ragtimes of the day.

"Some fellow's still got a 'hang-over,'" observed the sheriff as he paused before a cell, consulted a number, then searched for the key. As the door swung open a sleepy voice was raised in mock solemnity.

"What ho, varlet! Why dost thou open the dungeon door? Has the king granted a reprieve?" His eyes blinking, the inmate stepped into the bright light of the hall. A dull red suffused his pale face as he saw the tall figure behind the sheriff.

"Hello, Dad! Nice morning," he smiled in a weak attempt at joviality, but the smile faded as he sensed a change in his father.

"My son arrested in a low gambling den!" the father said bitterly. "Donald, you have disgraced the family name. Your drinking carousals and gambling can have but one end. I have been too easy with you. For your own good I'm going to turn you loose. Until such time as you can return to me rid of your bad habits, and have proven yourself a man, you are not a son of mine. I—I'm done with you."

Donald's father turned abruptly on his heel and strode swiftly down the passage. It had been a tremendous test of his will power to make this short speech, and to resist the almost overmastering desire to take his boy in his arms.

The young man stood with mouth agape, a stupefied look in his eyes, and stared after the retreating form of his parent. The sheriff broke the silence. "We'll go upstairs, Don!"

On the upper floor the desk sergeant handed the released prisoner his watch and money, taken from him, as is the custom, the night before. The sheriff motioned to a seat.

"Sit down. I want to talk to you," Donald listlessly obeyed.

"Sorry, boy, but I had to do it," the sheriff said in a kindly voice.

"It's all right, Jim. There's no hard feelings."

"What are you going to do?"

"I don't know," Donald admitted dully.

"How much money have you got?" Donald stood up and drew from his pocket a few crumpled bills and some

loose change, then threw out his arms in an eloquent gesture. As he stood with the slanting rays of a late December sun shining on his black hair, he presented a wonderful specimen of man. Six feet in height, of a deceptive slenderness, his rather tight-fitting grey suit set off the graceful lines of a supple body. His shoulders were wide, with the gentle slope that denotes agility as well as strength. His fine white skin and long black lashes would have given his features an effeminate touch but for the manly mould of his face, with its square jaw, broad forehead, and deep, wide-set eyes.

The sheriff's appraising eyes glowed with admiration as they rested on the young man. To the casual eye Donald appeared of slight build, but his old friend knew of the steel-like muscles of those arms and the strength of the long, straight legs.

The mind of the older man flashed back at a football game in Donald's High School days, with the State championship at stake. Donald had been sent into the game at the eleventh hour, and with defeat staring the home team in the face he had torn through the opposing lines like a madman for agonizing gains until his dark head flashed across the line to victory.

Donald came embarrassedly to his feet.

"Well, I guess I'll be moving," "Here, boy, take this," the sheriff said awkwardly, thrusting a roll of bills into Donald's hand.

The young man's face flushed. It's awfully good of you, Jim, but I—" "It's all right, Don," interrupted the older man, summoning a smile. "I'm just giving you a loan."

Donald looked at him soberly. "I'll pay you back when—I—I—earn it."

His face very serious, the sheriff placed a hand on Donald's shoulder.

"Now, listen, Don. Your father and I talked here in the office for an hour before he bailed you out, and we agreed that the best thing was to let you go on your own. No, I am not going to give you a lecture, for you are not wholly to blame. Having a rich father is not the best thing for a young fellow, but because you got fired out of college should not make a husky boy like you lose his grip. You just step out and buck the line like you do in football and you'll sure make a touchdown." He gripped Donald's hand. "Good-bye and good luck, Donnie!" he added feelingly.

Donald crossed the street to the Hancock House and sank moodily to a chair in the corner of the lobby. His confinement in the jail and the preceding festivities had robbed him of a night's rest, and he suddenly realized that he was very tired and sleepy. Forgetting the change in his circumstances, he engaged an expensive room on the first floor and immediately went to bed.

Upon awakening Donald switched on the light and lay for awhile trying to adjust himself to this new situation. Serious meditation, however, brought him no nearer a solution of his problem. A cold bath, followed by a brisk rub down and clean linen, removed all the remaining traces of his night of wild revelry.

The news of John McLean's break with his son spread rapidly through the small New England city. On his way to the desk to order his baggage to be sent to the dock, Donald was beset by several friends who were loud in voicing their sympathy. Extricating himself as quickly as possible, he made his way to the elevator. Quick steps sounded behind him, and, turning, he looked into the smiling face of his boxing instructor, Spike Ryan.

"Hello, Kid, how they comin'?" grinned Spike.

"Come upstairs with me, Spike." Once inside the room, Donald turned to his visitor. "If you start any of this sympathy stuff I'll hand you that famous 'one-two' punch you taught me."

"Symphy, be damned," chuckled Spike. "Dis is your lucky day. I come

here to congratulate you, to give you de glad hand."

"Why all the joy? Most of my friends seem to think it is my funeral."

"Say, Donnie," Spike said earnestly, "I bin watchin' ya pretty close for de past year, an' ya sure bin hittin' her up an' y'd have taken de count of ten an' be sittin' wid de stew-bums. Ya bin fightin' an exhibition wid life wid soft twelve-ounce gloves, an' de both of ya fightin' under wraps an' pullin' y'r punches. From now on de fight will be on de square an' to a finish wid bare knuckles. De guy in de other corner will hand ya some awful joits, an' y'll have to do some pretty fast work wid y'r dukes an' pins to keep away from de slumber swat. But, Donnie, ya got de goods in ya. Nearly four years in an engineerin' course in de college gives ya a better start than most of us guys. I'm backin' ya to win."

He seized Donald's hand, and his battered face filled with tenderness as he looked up at his friend. "Good luck, boy. Keep a stiff upper lip, an' don't forget that old John Barleycorn's a bum second." At the door he turned: "How ya fixed for kale, Donnie?"

"You get out!" smiled Donald. Spike grinned as though pleased at the rebuff, and closed the door.

For some time after Spike's departure Donald sat lost in meditation. The philosophy of the ex-pugilist, presented in the vernacular of the prize-ring, had affected him deeply. "Ya bin fightin' an exhibition wid life, but from now on de fight is on de square," Spike had said. True enough, he thought, life had been soft and easy with him. But now it was going to be "on de square." His strong mouth set in a straight line, and involuntarily he squared his shoulders.

Donald left the hotel by the side door to avoid meeting several friends who had gathered in the lobby. He had an hour to wait for the sailing of the boat for Bangor. Unconsciously he walked towards the hill. An overwhelming sense of loneliness swept over him as he stood before his home, looming huge and white in the bright starlight of the winter night.

At the first sound of his master's step on the pavement a big collie dog rushed forth and flung itself bodily on the young man, whimpering in sheer joy. Standing on hind legs with paws on his chest, he tried to lick Donald's face. The noise was apparently heard within the house, for a shade was raised and Donald's mother peered out into the night. Silencing the dog's joyous whines as best he could, Donald crouched low behind the hedge until the blind was lowered. (To Be Continued.)

Minard's Liniment for Every Pain.

Canada Coal Production

Coal production in Canada during July was 23 per cent. greater than average July production. The largest production was in Nova Scotia, followed by Alberta and British Columbia in the order stated.

DON'T suffer headaches, or any of the pains a tablet of Aspirin can end in a hurry! Physicians prescribe it, and approve its free use, for it does not affect the heart. Every drug-gist has it, but don't fail to ask the druggist for Bayer. And don't take any but the tablets that are stamped with the "Bayer Cross."

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.

THE MOLARS

Consider for a moment the military "machine" in greatest prominence; the officers carefully groomed; next the sub-officers; and in the background, the rankers—who bear the brunt of battle.

Now then, consider the masticating "machine." In the forefront, the incisors and canines, well kept—next behind the bicusps, and to the rear, the molars—you catch the simile? Twelve is their mustering strength, six upper and six lower, though this number is variable, since frequently the third molar is missing, while again a fourth molar occasionally presents.

Now, a word about their roots. You have perhaps, had the "nerve" removed from one of these molar teeth, which operation proved very tedious, necessitating your return two, three or four times for treatments—until you wished that you had had the "old tooth" taken out.

It is precisely because of the difficulties attending the management of these teeth, when badly diseased, that you should be on your guard to notice any trouble in its beginning and have it checked.

But of course you can have them "pulled."

Well, take your lawn-mower. Strip it of one or more of its blades. With what efficiency will it do its work? Diminished indeed. Suppose then, that you lose a molar, or two, or three, or six, or ten of them—how much masticating efficiency is left you? Very little, and what prospect for good health? Poor enough!

So if you would live long and healthfully, guard well these ranks and see to it that they remain unbroken.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Little Helps For This Week

In nothing be anxious; but in everything, by prayer and supplication with thanksgiving, let your requests be made known unto God.—Philippians iv. 6 (R.V.).

Why therefore should we do ourselves this wrong. Or others,—that we are not always strong; That we are ever overborne with care; That we should ever weak or heartless be, Anxious or troubled, when with us is prayer. And joy and strength and courage are with Thee. —Richard Chenevix Trench.

"In everything," says Saint Paul, "let your requests be made known unto God." For this everything, nothing is too small. That it should trouble us is enough. There is some principle involved in it, worth the notice even of God Himself; for did He not make us so that the thing does trouble us? And surely for this everything nothing can be too great. —George MacDonald.

More Maple Sugar

Official statistics show an increase of nearly 4,000,000 pounds in the production of maple sugar in Canada in 1928, compared with 1927. The estimated production for 1928 was 13,798,000 pounds valued at \$2,269,686. Quebec is the principal maple sugar producing province in Canada although rivalled closely by Ontario in the production of maple syrup.

Love is a disease and it is said that only married men are immune.

The Yukon district is almost as large as France.

Athletes—Keep Minard's Liniment handy.

Southern Alberta Co-Operative Association

A Turnover Of \$500,000 Reported For the Past Year

From a turnover of \$200,000 in 1926 to one of \$500,000 in the business year just closed is the record of the Southern Alberta Co-operative Association. In the past year over 21,000 head of livestock were handled, 17,000 head being hogs and the balance cattle and sheep. Membership in the Association has grown in two years from 267 members to 1,170.

MANY MOTHERS RECOMMEND THEM

Baby's Own Tablets Are Fine For Nervous, Sleepless Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the minor ailments of young children. "Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the Tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house, for they are a valuable remedy."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Canada is 33 times as large as Italy.

Canada has the largest inland port in Montreal.

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Do You Know ?

That a Federal Truck
Chassis can be purchas-
ed as low as
\$1410.00.

Federal is a real Truck
with 18 years specialized
truck experience back
of it.

A Federal on the
Farm lessens pro-
duction costs....and
means increased
profits.

Further information gladly
furnished on request.

For Your Home or a Friend's

WHETHER you buy a
Hotpoint Percolator
for your own use or to
give to a friend you'll al-
ways be satisfied. Your
selection of a Hotpoint
Percolator is backed by
the judgment of hundreds
of thousands of other buy-
ers who have proved that
the Hotpoint is without
equal in making fragrant
coffee—in retaining its
good looks—in giving
years of care-free service.
There's a Hotpoint Per-
colator of size and price
to meet your needs. Ask
your dealer. NA-927
